

TAMFIS NIG LTD

Trading as Tamfitronics. Electrical and Instrumentation (E&I) engineering services for the oil and gas and industrial sectors.

Identity

Field	Detail
Legal entity name	TAMFIS NIG LTD
Trading name	Tamfitronics
RC number	8067447
Incorporation date	11 November 2024
Corporate lineage	Operating in electrical and instrumentation engineering from Bonny Island since 2010; incorporated as TAMFIS NIG LTD (RC 8067447) in November 2024, also providing software and general services.
CAC status	ACTIVE
Registered address	Plot 87/104, Zone 2, Finima, Bonny Island, Bonny, Rivers State, Nigeria
Email	services@tamfitronics.com
Telephone	+234 810 006 6253
Website	https://www.tamfitronics.com

Registrations and compliance status

Each credential shows its true status. Not currently held means not held.

Credential	Status	Detail
CAC registration	Held	ACTIVE · RC 8067447 · Since 11 November 2024
Tax Identification Number (TIN)	Held	ACTIVE · Tax ID 2523323033976
NOGIC JQS registration	Application in progress	Registration in preparation; service category to be confirmed.
OGISP service permit	Application in progress	Regulator selection (NUPRC upstream or NMDPRA midstream/ downstream) pending confirmation of target-client segment.
NCDMB Nigerian Content compliance	Application in progress	Nigerian Content compliance posture in progress.
Insurance cover	Not currently held	No insurance policy currently held.
Professional indemnity insurance	Not currently held	No professional indemnity policy currently held.
HSE management system	Not currently held	HSE policy statement published; formal HSE-MS certification not yet held.
ISO certifications	Not currently held	No ISO certification currently held.

Capabilities

Electrical Engineering

Power distribution, wiring and protection work on industrial and hazardous-area facilities.

E&I design; Installation; Panel wiring; Hazardous-area wiring; Cable installation and termination; Earthing and lightning protection; Motor control centre work

Instrumentation and Control

Field instrumentation from hook-up through calibration and loop verification.

Instrumentation hook-up; Calibration; Loop checking; Field instrument servicing; Control systems integration

Automation / PLC / DCS / SCADA

Integration and support of control systems and their field networks.

Control systems integration

Commissioning

Checks and sign-off that take installed systems to operation.

Commissioning; Loop checking

Maintenance and Reliability

Routine and corrective maintenance of E&I equipment.

Maintenance; Calibration; Field instrument servicing

Project Engineering

Project engineering support for E&I work packages.

Project Management and Project Controls

Project planning and execution, monitoring and control of timelines, budgets and quality, and contract management.

Industrial Digitalisation / IIoT

Industrial digitalisation and IIoT advisory. AI-assisted engineering documentation is used as a drafting aid; every deliverable is reviewed and signed off by a named engineer.

Civil Engineering

Structural design, infrastructure development, construction supervision and civil works project management.

Mechanical Engineering

Mechanical system design, plant maintenance and fabrication.

IT and Software Development

Bespoke software, websites, hosting and IT advisory. Software development and web design are provided under the company's registered General Services and Contracting category.

Custom software: enterprise solutions, mobile apps (iOS and Android) and IoT monitoring systems; Web design and development, including corporate and e-commerce sites; Server management and hosting; IT consulting: cybersecurity, data management and digital-transformation roadmaps

General Contracting (EPC)

End-to-end management of EPC projects: procurement, construction supervision and quality control.

Business Development and Management Consulting

Strategic planning, organisational development, educational resources for client teams, and bid and prequalification support.

Standards worked to

IEC; IEEE; NEC; NFPA; API RP 500 and API RP 505 (hazardous-area classification); ISA standards for instrumentation

Equipment categories routinely serviced

Transmitters (pressure, temperature, flow, level); Control valves and positioners; PLC, DCS and SCADA systems; Variable frequency drives; Motors; Motor control centres; Switchgear; Analysers; Fire and gas detection systems; Fieldbus and HART networks

Sectors served

LNG and Gas · Oil and Gas · Energy · Industrial Facilities · Infrastructure · IT and Software

Company portfolio

Engagements where the company, or its predecessor business, was the contracting party. Client references are available on request.

Client	Service	Sector
Victory Crown Enterprise	Consulting	
DAGOREG & Partners	Consulting	
Tushebro Global Services Ltd	Consulting	
Several private individuals	Consulting	Building and construction

Leadership track record

Delivered by the named principals while employed by the contractors shown. Presented as evidence of individual technical depth, not as company contracts.

Contractor / client	Project / engagement	Sector	Period
AOS Orwell Limited	NLNG project, Finima, Bonny (ongoing engagement)	Oil and gas	February 2021 to present
ARCO M&E and Pivot-GIS Nig. Ltd	Strategic shutdown maintenance coordination	Oil and gas, maintenance	October 2017 to February 2021
Dalf Eti Nigeria Limited	Strategic project management	Engineering and construction	November 2015 to March 2017
SNEF Nigeria Ltd	Total EPL flare-out projects, offshore	Oil and gas, offshore	May 2014 to September 2015
Techint Cimimontubi Nigeria Ltd	Chevron EGTL1 project, Escravos, Delta State	Oil and gas, EPC	February 2010 to May 2013
Nigeria Westminster Dredging Marine Ltd (DAGOREG & Partners)	Road 33 extension lighting project	Infrastructure, civil engineering	August 2009 to January 2010
EC/DBN	NLNG OSBL Six (ASI) project, including 132kV integration	Oil and gas, engineering	2007 to May 2009
Techint Cimimontubi Nigeria Ltd	NLNG project, Finima, Bonny L.G.A.	Oil and gas, construction	October 2006 to September 2007
Julius Berger Nig. Plc	NLNG Train 1 and 2 base project	Construction and infrastructure	August 1996 to February 1998

Directors

Name	Role	Significant control
Tamunofinilarisa Brown	Director	70%
Tamunoene Ernest Igoni	Director and Company Secretary	30%
